## 7 DISPATCH SUMMARY

### Recommendation — resolve before flight:

- Fuel: insert a stop — the C172 range makes VABB→VIDP (614 NM) infeasible non-stop.
- NOTAM: confirm any block/closure window against EOBT.
- Weather: carry a suitable alternate and hold fuel; reassess on current TAF.

AIRAC 2607 (eff 2026-07-09). Validation via /planning/validation-report. All values illustrative — demo only, not for navigation.
